*Confirmation of non-involvement of M. Maksimovic in RPWI/JENRAGE team*

I hereby confirm on my honor that Dr. Milan Maksimovic, has not been involved in any way in the JUICE/RPWI consortium, neither in the JENRAGE team.

- Dr. Milan Maksimovic informally participated to a few technical discussions that occurred within the plasma group at LESIA about the JENRAGE design, but was never officially part of the JENRAGE team.
- He never participated to any of the Electromagnetic Sensor Study team meetings, and neither to any of the *JUICE/RPWI* and *JENRAGE* meetings.
- The presence of his name on the *EJSM Electromagnetic Sensor Study* and *JENRAGE* webpage on the LESIA website is due to a misunderstanding and has thus been corrected.

I hope that my mistake will not be used in a malicious way.

Baptiste Cecconi

Astronome Adjoint (Research Scientist) at LESIA  
Scientific Coordinator of the JENRAGE team
